PROFESSIONAL EXPERIENCE

2017

Hyper Island

Human-centered design projects with modules focusing on design thinking, UX research, and digital technologies

Clients: BBC, Pentland Brands, Speedo, LateRooms, and the NHS
Industry-led by IDEO, Common Good, Plot London, and Snook

2015-2017

Fullstack Developer • OwnLocal

Designed and programmed interactive UI elements for the customer service team to engage with on the front-end, while also implementing the back-end application logic.

2016

Facilitator

Mentored and facilitated workshops for females that were new to programming, both individually and through organizations Women Who Code, PyGirls, and University of Texas.

2012-2014

Freelance Writer

Interviewed and wrote features for lifestyle publications, while visually designing editorial content and reviewing submissions.
