

# Sarah Ing

C R E A T I V E C O D E R

Hello! I'm Sarah. I'm an interdisciplinary developer who approaches her work with a go-getter attitude, sense of humor, and curiosity.

## experience

### Fullstack Developer • OwnLocal 2015-2017

- Created, implemented, and maintained software tool for the support team to perform audits on business data using Google Places API, jQuery, HTML, CSS, and Rails
- Wrote and tested localization gem to correctly validate international business records using RegEx, Ruby, and RSpec
- Worked on client-facing business directory to display ad content using JavaScript with Backbone, Rails, and Cucumber 2017

### Experience Designer • MIF Creative 50

- Developed an interactive experience for the Manchester International Festival, using technology to explore the interplay between the physical and digital realms

### Hyper Island 2017

- Human-centered design projects with modules focusing on design thinking, UX, and digital technologies
- Clients: BBC, Pentland Brands, Speedo, LateRooms, and the NHS
- Industry-led by IDEO, Common Good

### Freelance Writer 2012-2014

- Interviewed and wrote features for lifestyle publications, while visually designing editorial content and reviewing submissions.
